🔗 Portfolio Website

👋 Summary

Senior Frontend Developer with **5+ years** of commercial experience building scalable and maintainable SPA and PWA applications using Vue.js and modern JavaScript ecosystem.

Focused on frontend architecture, performance optimization, and long-term maintainability. Experienced in leading frontend projects from scratch, owning feature delivery end-to-end, mentoring developers, and collaborating directly with clients and cross-functional teams.

Currently open to remote opportunities where I can contribute to impactful products and continue growing as a developer.

🧰 Experience

Senior Frontend Developer (Vue.js), Sweet Stack Digital  04/2023 – Present
Remote

- Led development of multiple frontend projects from scratch using Vue ecosystem
- Architected scalable and maintainable frontend applications with focus on long-term stability
- Owned feature delivery from requirements gathering to production deployment
- Implemented real-time functionality using WebSockets and third-party integrations
- Collaborated directly with clients, designers, backend developers, and product teams
- Mentored developers and contributed to code quality through reviews and engineering guidance

Middle-Strong React Developer, Sweet Stack Digital  02/2022 – 04/2023
Remote

- Developed complex business-critical UI features for high-load platforms
- Integrated multiple third-party APIs and asynchronous data processing solutions
- Managed scalable application state architecture and frontend structure
- Improved application performance and development workflows

Middle React Developer, NDA 06/2021 – 02/2022
Remote

- Built modular and reusable frontend component architecture
- Developed interactive user interfaces using React, Redux, and TypeScript

- Integrated REST APIs and maintained structured frontend data flows

Junior React Developer, NDA

12/2020 – 06/2021

Remote

- Developed reusable React components and UI functionality
- Implemented pixel-perfect interfaces based on design specifications
- Integrated REST APIs and collaborated within agile development teams

 Skills

Vue.js

TypeScript

JavaScript

Pinia / Vuex

Frontend Architecture

Vite

WebSockets

Docker

 Projects

Dev Lab

A public record of reusable TypeScript and Vue 3 code and practices drawn from real projects, with documented reasoning, trade-offs, and a portable Claude Code development toolkit.

Architecture

A Vue 3 reference architecture built with TypeScript, Vite, Pinia, and Vue Router, featuring ESLint-enforced layer boundaries, portable development guides, tests, and CI.

Alphabet

A structured representation of my developer mindset, using an A–Z system of principles covering architecture, decision-making, and product thinking.

 Education

Bachelor's Degree - Publishing and Printing, <i>Yuriy Fedkovych Chernivtsi National University</i> 	09/2019 – 06/2023 Chernivtsi, Ukraine
Master's Degree - Publishing and Printing, <i>Yuriy Fedkovych Chernivtsi National University</i> 	09/2023 – 12/2024 Chernivtsi, Ukraine
